

Board Cybersecurity Briefing — H1 2025

Document date: 2025-11-15 · Maps to NIST CSF GV.OV

1. Posture Summary

Overall security posture is rated Moderate. Key investments this period: MFA expansion and EDR rollout.

2. Top Risks

Third-party exposure, legacy claims platform, and phishing remain the leading risks.

3. Roadmap

H2 priorities: complete privileged-access vaulting, formalize the IR tabletop program.

Cadence

Security is presented to the Board twice per year (H1/H2). Quarterly reporting is under consideration.

Sample document generated for CyberRx pilot testing. Fictional organization; not real PHI. This document intentionally omits some required elements so reviewers can verify gap detection.
