

Disaster Recovery Test Report & BCP-DR Plan

Document date: 2025-11-15 · Maps to NIST CSF RC.RP

1. Plan

The BCP-DR plan defines recovery procedures and an RTO of 8 hours / RPO of 1 hour for tier-1 systems.

2. Last Test

The last full failover test was conducted 2024-09-12. The claims platform recovered in 11 hours, exceeding its 8-hour RTO.

Gap

No full DR test has been performed in the past 12 months, and the prior test did not meet the claims-platform RTO.

Sample document generated for CyberRx pilot testing. Fictional organization; not real PHI. This document intentionally omits some required elements so reviewers can verify gap detection.
