

Recovery Communication Plan

Document date: 2025-11-15 · Maps to NIST CSF RC.CO

1. Audiences

Defines messaging for members, contracted providers, and regulators during recovery from a major disruption.

2. Cadence

Internal status updates every 2 hours during an active recovery; member updates via portal and email.

Gap

Press/media holding statements and a pre-approved spokesperson list are not included.

Sample document generated for CyberRx pilot testing. Fictional organization; not real PHI. This document intentionally omits some required elements so reviewers can verify gap detection.
